

to get our telescopes ready to be taken to Mt. Carmel. At 3:00 pm\* the weather was still cloudy but it was getting better. About 3:15 pm\* my father took Frank and me to Mt. Carmel where we set up our telescopes. The weather was looking better all the time. About 4:00 pm\* we were set up and ready to get our data from the eclipse. The eclipse of the sun which happened on July 30, 1963 was planned a year in advance.
