

+ ✱ 4:42 pm P.S.T. - The solar eclipse
20:42 began.

+ 4:48 pm P.S.T. - I spotted the first
20:48 part of the sun that
was blotted out by
the moon, a very small
part.

+ 5:00 pm P.S.T. - A very good size of
27:00 the sun was blotted
out by the moon about
25%.

+ 5:25 pm P.S.T. - About 70% of the
27:25 sun covered.

+ 5:38 pm P.S.T. - About 77% of the
27:38 sun was covered.

✱ + 5:51 pm P.S.T. - 83% of the sun's
27:51 surface was covered
max. for Balto. Md.

+ Weather clear
✱ important times
